### Notes:

- All dollar figures are calculated based on the observed exchange rate as of July 1<sup>st</sup> 2016: 661.4 \$/US\$.
- Symbols for quarters: 1Q, 2Q, 3Q y 4Q, accordingly.
- Symbols for other periods of the year: 1H for the first half of the year and 9M for the first nine months of the year.
- Currency symbols: \$: Chilean pesos; CLP: Chilean pesos; US\$: U.S. dollars; PEN: Peruvian soles; COP: Colombian pesos; ARS: Argentine pesos; BRL and R\$: Brazilian reales.
- M: million; TH: thousand.

## I. Executive Summary

Consolidated revenues in the second quarter of 2016 reached \$2,120,045 million (MUS\$ 3,206), which represents 5.6% growth compared to the same period last year. The increase in revenue is primarily due to SSS growth at Falabella and Sodimac in Chile; loan book growth from Promotora CMR and Banco Falabella Chile; and a higher contribution from Peru due to the appreciation of the PEN/CLP. The 3.9% increase in total sales area in the last 12 months also contributed to consolidated revenue growth. However, the depreciation of local currencies against the Chilean peso, especially the Argentine and Colombian currencies, partially offset this topline growth. Excluding the impact of the currency variation (by using 06/30/15 exchange rates), the company's consolidated revenues would have increased by 9.1%.

The consolidated loan portfolio, as of June 30th, 2016, reached \$4,314,499 million (MUS\$ 6,524), an 11.8% increase with respect to the same period last year, with growth in every country (in local currency). Provisions to gross loans remained within a stable range, year over year.

Operating income this quarter rose to \$215,941 million (MUS\$ 327), a 5.0% increase YoY. The operating margin remained stable, compared to the same period last year, at 10.2%, as deterioration in gross margin was offset by an improvement in SG&A/revenues. The variation in gross margin was largely due to cost pressures at Banco Falabella, CMR and operations in Colombia, while the SG&A margin improvement is primarily the result of productivity measures and operating leverage.

Consolidated EBITDA reached \$279,789 million (MUS\$ 423), a 6.4% YoY increase, with an EBITDA margin of 13.2%, ten basis points higher than 2Q15.

Consolidated non-operating results reached a net expense of \$50,286 million (MUS\$ 76), which is 11.8% higher than 2Q15, primarily due to higher net financial expenses.

Consolidated net income this quarter reached \$118,308 million (MUS\$ 179), a 2.5% increase with regards to the same period last year. Net income does not include gains or losses from asset revaluations of investment properties, as the company adopted the historic cost method in 2009.

In the second quarter, the company inaugurated five stores. Falabella opened a department store in Colombia, in the city of Villavicencia. Tottus opened two supermarkets in Chile: one in the Quillota municipality, in the Valparaiso region; the other in the Ciudad Empresarial neighborhood, in the Huechuraba municipality in Santiago. In Perú, Tottus opened a Hiperbodega Precio Uno supermarket in the province of Chincha, in the department of Ica. Sodimac opened its third store in Brazil, in the Sao Jose de Campos municipality in the state of Sao Paulo. Also during the period, Falabella closed a department store in the city of Copiapo.

After the quarter ended, in July, S.A.C.I. Falabella and Soriana, the second largest supermarket chain operator in Mexico, signed the definitive contracts to develop together a chain of home improvement stores (Sodimac) and a financial services business (CMR) in Mexico.

Also in July, the process of dividing Aventura Plaza S.A.'s assets was finalized and S.A.C.I. Falabella, through its subsidiaries Falabella Peru and Plaza S.A., began to consolidate and control the shopping centers Bellavista, Trujillo and Cayma, all located in Peru.

### III. Main Events during the Period

- In April, S.A.C.I. Falabella signed a memorandum of understanding (MOU) with Soriana, the second largest supermarket chain operator in Mexico, in order to develop together a chain of home improvement stores and a financial services business (see details in Events after the period).
- On April 26<sup>th</sup>, during the Ordinary Annual Shareholders' Meeting, the following was agreed upon:
  - Approval of a \$54 per share final dividend, charged against the earnings of the fiscal year ending December 2015. The dividend was paid on May 10<sup>th</sup>, 2016.
  - Approval of a dividend policy consisting in the annual distribution of at least 30% of the net profits of each fiscal year.
  - Approval of the firm EY to provide external audit services for the company's fiscal year 2016.
  - Approval of the Annual Report, Balance Sheet, Income Statement and External Auditors Certificate corresponding to the fiscal year ending December 2015.
- In May, S.A.C.I. Falabella issued in the domestic market the equivalent of 4.5 million U.F. (MUS\$ 171) in bonds, denominated in U.F. and Chilean pesos, in order to finance short term liabilities. The bonds were issued in two series.
  - The series P is for a total of 2 million U.F., 23 years (20 year grace period), at a U.F. + 3.17% interest rate, which is a 152 basis point spread with regards to the reference rate. This series was 2.7x oversubscribed.
  - The series O is for a total of \$63,000 million, 6 years (4 year grace period), at a 5.15% interest rate, which is a 100 basis point spread with regards to the reference rate. This series was 2.6x oversubscribed.
- In May, Mall Plaza Egaña received the 2016 VIVA (Vision, Innovation, Value, Achievement) Award for Sustainability from the International Council of Shopping Centers (ICSC) at its annual event held in Las Vegas.
- During the second quarter, the company opened five stores.
  - Tottus opened three supermarkets in the region. In Chile, the company opened a Tottus supermarket in the Quillota municipality, in the Valparaiso region, with a selling area of approximately 2,600 m<sup>2</sup>; and another in the Ciudad Empresarial neighborhood, in the Huechuraba municipality in Santiago, with a selling area of approximately 1,600 m<sup>2</sup>. In Perú, Tottus opened a Hiperbodega Precio Uno supermarket in the province of Chincha, in the department of Ica, with a selling area of approximately 2,200 m<sup>2</sup>.
  - Sodimac opened its third store in Brazil, in the Sao Jose de Campos municipality in the state of Sao Paulo, with a selling area of approximately 11,200 m<sup>2</sup>.
  - Falabella opened a department store in Colombia, in the city of Villavicencia, with a selling area of approximately 5,700 m<sup>2</sup>.
- Also during the second quarter, Falabella closed a department store in the city of Copiapo.
- Five specialist stores were opened in the region during the quarter. In Chile, the company opened Etam, Aldo, Spring and Mango stores. In Peru, one Aldo store was opened.
- Falabella added the French lingerie brand Etam to its portfolio of exclusive international brands in Peru and Colombia (available in Falabella Chile as of last year) during the quarter.
- In June, S.A.C.I. Falabella made an R\$ 140 million (MUS\$ 41.8) capital increase at Construdecor, its home improvement subsidiary in Brazil, in order to finance its investment plan and future growth. As a result, S.A.C.I. Falabella's stake in Construdecor increased to 60.0% (from 50.1%).
- At Sodimac, the Ozom brand entered Uruguay and is now available in four countries.

### Events after the period

- In July, S.A.C.I. Falabella and Soriana signed the definitive contracts in order to develop together a chain of home improvement stores (Sodimac) and a financial services business (CMR) in Mexico:
  - S.A.C.I. Falabella and Soriana will each own a 50% stake in the two new companies.
  - S.A.C.I. Falabella and Soriana will each contribute USD 300 million in capital and/or real estate over the next five years in order to develop these projects.
  - The financial services business will begin in the short term with the launch of CMR in all of Soriana's store formats.
  - The initial investment plan includes the opening of approximately 20 Sodimac stores in five years.
- After the end of the quarter, the company opened four stores:
  - In July, a Tottus supermarket in Chile, in the Coquimbo region, with a sales area of 2,400 m<sup>2</sup>.
  - In July, a Hiperbodega Precio Uno supermarket in Peru, in the Pisco province, with a sales area of 1,300 m<sup>2</sup>.
  - In August, a Hiperbodega Precio Uno supermarket in Peru, in the Barrios Altos neighborhood in Lima, with a sales area of 2,000 m<sup>2</sup>.
  - In August, Falabella opened a department store in Colombia, in the shopping center Plaza Central in the city of Bogota, with a selling area of approximately 7,100 m<sup>2</sup>.
- On July 6<sup>st</sup>, the process of dividing Aventura Plaza S.A.'s assets was finalized and S.A.C.I. Falabella, through its subsidiaries Falabella Peru and Plaza S.A., began to consolidate and control the shopping centers Bellavista, Trujillo and Cayma, all located in Peru.
- On July 15<sup>th</sup>, the company prepaid its Series F bonds (BFALA-F), which totaled U.F. 4 million.
- On August 2<sup>nd</sup>, Fitch Ratings upgraded Maestro Peru S.A.'s Local and Foreign Currency LongTerm Issuer Default Ratings (IDR) and senior unsecured note ratings to 'BBB+' from 'BBB'. The Rating Outlook is Stable.

## IV. 2<sup>nd</sup> Quarter 2016 Results

### 1. Revenues

In the second quarter of 2016, consolidated revenues reached \$2,120,045 million (MUS\$ 3,206), 5.6% higher YoY. The increase in consolidated revenues is primarily due to SSS growth at Falabella and Sodimac in Chile; loan book growth from CMR and Banco Falabella in Chile; and a higher contribution from Peru due to the appreciation of the PEN/CLP. Consolidated revenue also increased as the result of the opening of 24 new stores in the last 12 months (eight stores were closed in the same period), which resulted in a 3.9% net increase in total sales area. The depreciation of the Argentine and Colombian currencies against the Chilean peso, however, partially offset this topline growth.

The company's Chilean operations contributed the most to revenue growth this quarter. Of the three retail units, Falabella presented the highest growth, with revenues up 8.8% YoY, driven by 9.6% SSS growth. Sodimac reported 4.8% revenue growth, in line with the 5.0% increase in its SSS. Tottus reported a 5.4% increase in revenues, primarily driven by the opening of six new stores in the last 12 months. Falabella's SSS growth was largely due to favorable weather, well-received fall/winter collections, sustained growth in omnichannel sales (CyberDay event) and positive results from recently remodeled stores. At Sodimac, enterprise sales continued to outpace retail sales, driven by primarily by the real estate market. Tottus reported -0.7% SSS this quarter, due to weak consumer demand and the impact of the Easter weekend (which was in March this year, and April last year). Plaza's revenue increased by 7.1%, explained by a higher average leasable area due to the opening of new sections of Mall Plaza Egaña and Mall Plaza Copiapo, and by higher sales from tenants.

CMR reported a 14.1% increase in revenues this quarter, driven primarily by a 12.7% increase in the loan portfolio. Banco Falabella Chile's revenues grew by 7.0%, explained by a 9.6% increase in gross loans, partially offset by lower revenue from commissions and lower inflation-adjusted income, given the variation in the Unidad de Fomento (U.F.), which increased by 0.9% QoQ in 2Q16, compared to 1.4% in the same period last year.

In Peru revenues increased by 7.1%, primarily driven by Banco Falabella Peru, which reported a 14.4% increase in gross loans (in local currency); the opening of nine stores in the last 12 months; and by the appreciation of the PEN against the CLP. Saga Falabella's revenues increased by 10.5% (6.2% in local currency), mostly explained by the opening of three new stores in the last 12 months (including a Crate & Barrel), given that the contribution from SSS growth (+1.4%) was tempered by unseasonably warm temperatures and weak domestic demand. Tottus Peru reported 7.0% revenue growth (2.8% in local currency), driven by six new store openings in the last 12 months. The home improvement division continued to face headwinds from the construction industry and reported a -1.6% variation in revenues (-5.4% in local currency), primarily due to SSS which decreased by -4.4%, as well as one store closing (Sodimac Chincha) in the last 12 months.

In the case of Colombia, revenues increased 3.1%, primarily as the result of the depreciation of the COP against the CLP, which offset higher growth in local currency. Banco Falabella Colombia's loan book increased by 28.3% (in local currency). The department store reported -1.0% variation in revenues (+8.1% in local currency, driven by three new store openings in the past 12 months). Argentina reported a -11.5% variation in revenue this quarter, also explained by the pronounced depreciation of the ARS against the CLP, which more than offset positive revenue growth in local currency. Brazil's revenues were, once again, impacted by the depreciation of the local currency and generally weak consumer demand, which was partially compensated this quarter by the opening of a new Sodimac Homecenter (the third in Brazil) in April of this year.

### 2. Operating Income

Operating income this quarter reached \$215,941 million (MUS\$ 327), a 5.0% increase with respect to the same period last year, with a 10.2% operating margin, stable with respect to the same period last year.

In Chile, all three retail units reported an increase in their operating margins. Falabella's expanded by 143 basis points, primarily due to fewer markdowns, the favorable impact on imports of the recent currency trend, a higher contribution from apparel in the sales mix and productivity measures at the stores. Sodimac increased operating

margin by 50 basis points, thanks to an improvement in SG&A/revenue, due to greater efficiencies in logistics and at the stores. Tottus achieved a 40 basis point expansion, primarily due to more favorable purchasing terms.

Promotora CMR and Banco Falabella Chile both reported a decrease in their operating margins. CMR's decreased by 439 basis points, explained primarily by a higher collection expenses and provision expenses. Banco Falabella Chile's operating margin decreased by 430 basis points this quarter, primarily due to higher provision expenses, due to the more challenging macroeconomic environment, and increased IT expenses. Plaza's operating margin decreased by 119 basis points, primarily as the result of higher property tax expenses, depreciation expenses and increased costs related to security.

In Peru the operating margin decreased by 59 basis points, primarily due to less fixed expense dilution from SSS deterioration at the retail units and increased provision expenses at Banco Falabella. In Colombia, the operating margin decreased by 406 basis points, primarily due to a second quarter of markdowns at the department store and as of inflation-linked costs and higher provision expenses at Banco Falabella. Argentina's margin lost 129 basis points primarily due to higher wages, utilities and leases. In Brazil, the margin was down 240 basis points due to expenses related to the launch of the first three Sodimac stores in the country and the negative SSS from the existing Dicico stores.

### 3. Non-Operating Results and Net Income

Consolidated non-operating results reached a net expense of \$50,286 million (MUS\$ 76), 11.8% higher than 2Q15. This increase is largely due to higher net financial expenses, which reached \$61,686 million (MUS\$ 93) this quarter. This higher expense is explained by: i) losses from forward instruments taken to hedge letters of credit related to imports (given the general appreciation of local currencies against the USD, QoQ); and ii) a less negative comparison base, given that in 2Q15 the company recognized gains from forwards used to hedge the USD bond issued for the acquisition of Maestro, while this quarter that same bond is hedged with swaps (which provided benefits in the exchange rate differences account, with respect to the same period last year). This increase in financial expenses was partially offset by lower monetary readjustment expenses from inflation-linked debt (the U.F. increased 0.9% this quarter, compared to 1.4% in the same period last year).

Exchange rate differences registered a gain this quarter of \$6,424 million (MUS\$ 10), compared to an expense of \$532 million (MUS\$ -1) in the same period last year. The variation is, primarily, due to the fact that the USD bond that the company issued for the purpose of acquiring Maestro was fully hedged this quarter with swaps, which are accounted for in the same line item as the bond. On the other hand, in 2Q15 the bond was partially hedged with forwards, so the gains from those instruments were recognized as financial income while the impact of the depreciation of the CLP/USD on the bond was recognized separately as an exchange rate expense. As a result, the sum of net financial income/(expenses) and exchange rate differences this quarter increased 8.7% compared to the same period last year.

It is worth noting that S.A.C.I. Falabella has two bonds, one for MUS\$ 500 and another for MUS\$ 400, both of which have both capital and interest fully hedged, with swaps, to maturity.

Other income/(expenses) this quarter recorded a loss, compared to a gain in 2Q15, given that in the same period last year the company recognized insurance compensation from two stores lost in fires.

The net gain from affiliated companies increased 11.7% this quarter, primarily due to the contribution from Sodimac Colombia to the company's consolidated results.

The effective tax rate increased to 22.4%, compared to 21.7% in the same period last year, primarily due to the increased tax rate in Chile to 24% in 2016 from 22.5% in 2015.

As a result, net income for the period reached \$118,308 million (MUS\$ 179), 2.5% more than the same period last year. Net income does not include gains or losses from asset revaluations of investment properties, as the company adopted the historic cost method in 2009.

#### 4. Consolidated Balance Sheet

Non-banking current assets decreased \$115,122 million (MUS\$ 174) with regards to year-end 2015, primarily as a result of a decrease in cash and cash equivalents, trade and other accounts receivable and a decrease in inventory. Non-banking long term assets increased \$77,560 million (MUS\$ 117), mainly due to an increase in investment properties and deferred tax assets. In the case of the banking business, total assets increased by \$144,349 million (MUS\$ 218), compared to December 2015, mainly due to transactions with settlement in progress and loans and accounts receivable from clients, due to a higher level of activity in the business. As a result, total assets increased by \$106,786 million (MUS\$ 161).

Non-banking current liabilities decreased by \$34,504 million (MUS\$ 52) compared to December 2015, mainly explained by a decrease in trade accounts payable, current tax liabilities and other non-financial liabilities. Non-banking long term liabilities decreased by \$191,350 million (MUS\$ 289) due to the decrease in other non-current financial liabilities, which decreased primarily due to i) the transfer from long term liabilities to short term liabilities of obligations that come due in 2016; ii) the impact that the depreciation of the USD had on USD denominated liabilities and iii) the refinancing of some current and long term obligations. Total liabilities of the banking business increased \$163,711 million (MUS\$ 248) due to an increase in transactions with settlement in progress and an increase in time deposits and other term deposits, explained by the higher level of activity of the business. As a result, total liabilities decreased by \$62,144 million (MUS\$ 94).

#### 5. Consolidated Cash Flow

Non-banking business cash flow from operating activities increased \$80,820 million (MUS\$ 122) as of June 2016, compared to the same period last year, mainly as a result of higher proceeds from the sale of goods and services, in line with the higher level of activity of the business. Banking business cash flow from operating activities decreased \$117,702 million (MUS\$ 178), primarily due to a decrease in time deposits and other term deposits. As a result, consolidated cash flow from operating activities decreased by \$36,883 million (MUS\$ 56) in the period.

Non-banking business cash flow from investment activities was \$23,546 million (MUS\$ 36) less negative than in the same period last year, mainly due to insurance payments, other cash inflows and a decrease in additions to other long-term assets. Banking business cash flow from investment activities was \$50,609 million (MUS\$ 77) less negative with respect to the same period last year, mainly due to a less negative contribution from investment securities available for sale. As a result, cash flow from consolidated investment activities as of June 2016 was \$74,155 million (MUS\$ 112) less negative than in the same period last year.

Non-banking business cash flow from financing activities as of June 2016 was \$104,416 million (MUS\$ 158) more negative than last year, mainly explained by higher interest paid and less debt contracted. Banking business cash flow from financing activities was \$1,037 million (MUS\$ 2) more negative than the same period last year due to higher bond and other long-term debt payments and other financing obtained in the period. As a result, consolidated cash flow from financing activities was \$105,454 million (MUS\$ 159) more negative than the same period last year.

## V. Retail Indicators

### 1. Retail Business Revenues

#### Retail Revenues 2Q 2016 (MCLP)

	2Q15	2Q16	Var %	Var Local Currency %
<b>Chile</b>

<sup>4</sup> All variations are calculated in nominal terms and in the local currency of each country. In Argentina SSS are calculated net of IIBB.

<sup>5</sup> SSS growth includes revenue generated from the online channel of each business unit.

<sup>6</sup> SSS for Home Improvement Peru include Maestro, starting from 4Q15.

<sup>7</sup> SSS calculation does not include stores that had significant changes in sales area open to the public, due to remodeling, expansions, reductions or closings.

## 2. Number of Stores and Sales Area of Retail Businesses<sup>8,9,10</sup>

	Sales Area (m <sup>2</sup> )	Stores (#)	Sales Area (m <sup>2</sup> )	Stores (#)
<b>Chile</b>				
Department Stores	310,505	45	306,441	44
Home Improvement	703,605	85	711,839	85
Supermarkets	186,958	53	202,603	59
<b>Peru</b>

<b>Total Stores</b>	<b>2,646,582</b>	<b>445</b>	<b>2,750,216</b>	<b>461</b>

## 3. Number of Shopping Malls and GLA of Real Estate Operators<sup>11</sup>

	June 2015		June 2016	
	GLA (m <sup>2</sup> )	Shopping Malls (#)	GLA (m <sup>2</sup> )	Shopping Malls (#)
<b>Chile</b>				
Mall Plaza	1,190,000	15	1,210,000	15
Open Plaza	232,000	10	228,000	10
<b>Peru</b>				
Aventura Plaza	274,000	4	276,000	4
Open Plaza	247,000	9	271,000	10
<b>Colombia</b>				
Mall Plaza	26,000	1	26,000	1
<b>Total Real Estate</b>	<b>1,969,000</b>	<b>39</b>	<b>2,011,000</b>	<b>40</b>

Furthermore, the Group owns 1,020,000 m<sup>2</sup> of additional GLA in free standing Falabella, Sodimac, Tottus, Maestro stores and other locations.

<sup>8</sup> During 2015 the Company's sales area measurement was updated, which explains differences with data published in June 2015.

<sup>9</sup> Sales area includes cashiers and check out areas. In the case of Tottus, this represents approximately 8% of total sales area. This definition may differ from how some peers in the industry measure their sales area, and thus, has implications when comparing sales per square meter.

<sup>10</sup> The new Crate & Barrel store is included in department stores Peru. In 1H16 the company closed six stores, including five home improvement stores in Chile (Imperial), Peru (Sodimac Chinchá), Colombia (Constructor) and Brazil (two Dico's); and a department store in Chile.

<sup>11</sup> Open Plaza includes Power Centers (shopping malls with only two anchor stores, in addition to smaller shops) and Shopping Centers (shopping malls with three anchor stores, in addition to smaller stores) and is not part of Plaza S.A.

#### 4. Sales per Square Meter of Retail Businesses

##### Sales per Square Meter – 2Q 2016 (CLP / m<sup>2</sup>)

	2Q15	2Q16	Var %
<b>Chile</b>			
Department Stores	1,051,458	1,147,868	9.2%

Home Improvement	1,121,966	1,066,620	-4.9%
<b>Argentina</b>			
Department Stores	3,053,873	2,507,781	-17.9%
Home Improvement	1,129,119	994,115	-12.0%
<b>Brazil</b>			
Home Improvement	680,829	529,513	-22.2%
<b>TOTAL</b>	<b>1,413,125</b>	<b>1,392,026</b>	<b>-1.5%</b>

<sup>12</sup> Revenues divided by average area of the period. The YoY variation corresponds to the variation in Chilean pesos and not the variation in local currency. Total sales per square meter is the sum of revenues from the retail business divided by the average total surface of stores for the period. Online sales are included in the total sales figure of each business unit.

<sup>13</sup> Sales area includes cashiers and check out areas. In the case of Tottus, this represents approximately 8% of total sales area. This definition may differ from how some peers in the industry measure their sales area, and thus, has implications when comparing sales per square meter.

<sup>14</sup> a. CMR Chile's Loan Portfolio includes legacy car loans. New car loans are included in Banco Falabella Chile's loan book.

b. Banco Falabella Chile's provisions include additional provisions suggested by the SBIF (Superintendent of Banks and financial Institutions of Chile), the Chilean bank regulator, which are accounted for as liabilities.

c. Banco Falabella Chile's loans and provisions includes only consumer loans. informadas en los Estados Financieros de la compañía.

<sup>15</sup> Duration is calculated on a monthly basis according to the implied duration:  $1/[(\text{monthly cash flow})/(\text{gross loans})]$

<sup>16</sup> Total gross loans includes all loans, not just consumer loans.

<sup>17</sup> The CMR card was launched in 30 Maestro stores in February, contributing to Banco Falabella Peru's loan growth.

<sup>18</sup> Open accounts with balance refer to the stock of CMR accounts with less than 90 days of delinquency, voluntary transactions in the last 24 months and a balance greater than zero at any time in the period.

## 2. Percentage of Sales with CMR Card<sup>19</sup>

	1Q15	1H15	9M15	2015	1Q16	1H16
Chile - Falabella	44.7%	46.3%	46.3%	45.7%	41.2%	44.6%

Argentina - Falabella & Sodimac	25.2%	25.1%	24.9%	24.6%	24.7%	25.6%

<sup>19</sup> Percentage of Sales with CMR Card: The amount of sales revenue, as a percentage of total sales for that retail format, that corresponds to transactions made with a CMR credit card. As of this report, the calculation "Percentage of Sales with CMR card" only takes into account the portion of the transaction that the client paid using the CMR card (on occasion, a client will use more than one method of payment in a transaction). In prior reports, the entire amount of the transaction was considered in this calculation.

<sup>24</sup> International Operating Results includes banking business in Peru and Colombia, credit card business in Argentina and real estate business in Peru, as well as the corresponding retail businesses.

## IX. Financial Structure

Total liabilities as of June 30<sup>th</sup> 2016 reached \$8,101,835 million (MUS\$ 12,250). In turn, the leverage of the non-banking business<sup>25</sup> amounts to 1.08. Considering the financial debt<sup>26</sup> of the non-banking business, the ratio of Net Financial Debt / EBITDA was 3.11.

S.A.C.I. Falabella's firm-wide policy is to raise debt in local currency, or to hedge to local currency any debt raised in foreign currency. Under 144<sup>o</sup>/Reg S, the company has two bonds, one for MUS\$ 500 and another for MUS\$ 400, both of which are fully hedged with swaps, capital and interest, to maturity.

### Leverage Non-Banking Operations

### Net Financial Debt / EBITDA Non-Banking<sup>27</sup>

<sup>25</sup> Non-Banking Operations Leverage = Total Non-Banking Operations Liabilities divided by Total Equity.

<sup>26</sup> Non-Banking Business Financial Debt = total Current non-Bank Operations Liabilities + Total Non-current Non-Banking Operations Liabilities – Financial liabilities at fair value through income (Note 33 – Financial Instruments and Financial Risk Management).

<sup>27</sup> The ratio includes the fair value of the derivate financial instruments, related to financial debt. Therefore: Net Financial Debt = Non-Banking Financial Debt – Cash and Cash equivalents – Hedge Derivate associated to Financial debt.

### Debt Maturity Profile<sup>28</sup>

#### Debt Maturity Profile MCLP

Total Consolidated Financial Debt (excluding banking operations): MCLP 3,377,004.

#### Debt Maturity Profile MUS\$<sup>29</sup>

Total Consolidated Financial Debt (excluding banking operations): MUS\$ 5,106.

<sup>28</sup> Total Consolidated Financial Debt does not include the banking operations of the Falabella Group (Banco Falabella Chile, Banco Falabella Peru and Banco Falabella Colombia) or accrued interests; however, it does include CMR in Chile and Argentina.

<sup>29</sup> Debt converted to US\$ using the local currency exchange rate for each country at the close of the period.
